ACTIVITY EXAMPLE

Westpac Experience

Loan to Value Ratio (LVR)

Fairfield College 2016

What is LVR?

LVR is a term used in the bank and it is your loan to the property's valuation ratio.

SSEP EXAMPLE // BANK HOME LOANS DEVELOPED BY // FAIRFIELD COLLEGE AND WESTPAC

ACTIVITY EXAMPLE

Example

This house has a valuation of \$979,000.....

If I had a loan of \$700,00 my LVR would be **71%** (\$700,000 / \$979,000) = **71%**

CALCULATING INTEREST

On any loan you are going to pay back interest. For this exercise we will set a rate of 5% per annum.

Example:

For this house that is worth \$979,000, you have a \$200,000 deposit. This means you have a loan of \$779,000.

\$779,000/100x5/365x14

Loan Value / Int Rate / Days in a year x Days in a fortnight

This would be \$1493.97 per fortnight in interest!

ACTIVITY EXAMPLE

NOW YOUR TURN - CALCULATING LVR & INTEREST REPAYMENTS

Let's base our calculations on you having \$200,000 equity and a 5% p.a. interest rate

This house is worth \$1,700,000.

What is the LVR & fortnightly interest payments?

This house is worth \$679,000.
What is the LVR & fortnightly interest payments?

This house is worth \$470,000.

What is the LVR & fortnightly interest payments?

A few more for fun...

This is based on you having \$100,000 equity and 4.5% interest

This house is worth \$389,000.
What is the LVR & fortnightly interest payments?

This house is worth \$329,000.

What is the LVR & fortnightly interest payments?

This house is worth \$280,000.

What is the LVR & fortnightly interest payments?
