What do I want to achieve during my high school career?

Imagine it's your last day of high school. Looking back over the last few years, what do you want to have achieved during your time here?

Don't feel as though you have to fill in all the boxes unless you genuinely want to do it all!

Don't worry about what anyone else is writing down – this is about what matters to you.

Do complete at least the 4 categories with * next to them as they will directly affect your school experience and hauora.

Do think of what success means to YOU – what will 'future you' be happy that you've done?
