

Resource 12

Stay on track:

What do I need to have in place before I leave school?

Take a look at your 'Am I on track?' list in Career Central (under 'Next Steps'). The Career Central logo features a white cloud-like shape with a speech bubble inside, followed by the text 'career central' in a sans-serif font.

- Some things on the list you may not be able to tick off yet (e.g. you might be planning on going to uni but not able to achieve UE until you've sat final exams at Year 13), and
- others you might need some help to achieve (e.g. you will need access to a car and driving lessons to get your Restricted license, and money to pay for it)

Work through the '[Stay on track](#)' student workbook for each item on the list:

1. What do you need?
2. What can you do on your own, and what do you need help with?
3. Who could help you?

Links to further information have been included in the table in case you need to find out more.

Fill out as much of the table as you can then take it home to share with your whānau/caregivers to see what they can help with. What items do you need to prioritise and get on to now?

Don't give up hope if your whānau can't help in certain areas. Talk to your hauora teacher to see if you can figure out another way or identify someone else who might be able to help you.
